

## Glass Froster / Freezer Range

**Servaclean**<sup>®</sup>  
Bar Systems   
Simply build a better bar

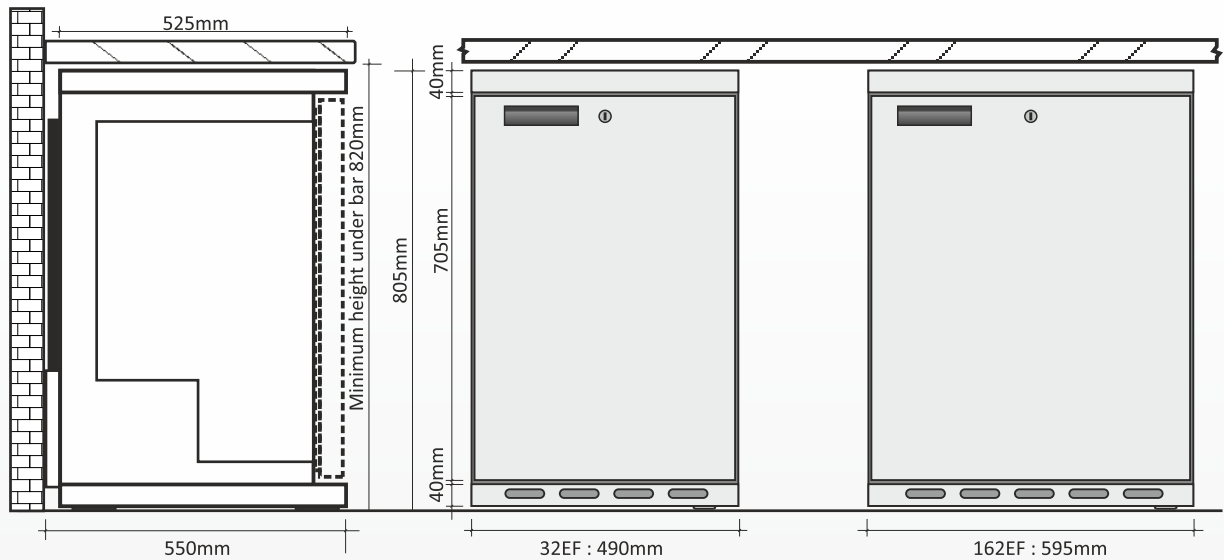

The **eCold Freezer** range...  
...saving pounds and the planet.

The *eCold Freezer* range is designed to be good to your pocket as well as the environment. Extra insulation and efficient compressors maximise cooling performance while using less energy.

Our reduced height (805mm) *eCold Freezer* cabinets are available in two widths, 490mm and 595mm. They are designed for either the storage of frozen foodstuffs, or for use as a glass froster. They are manufactured from stainless steel, with a stainless steel interior. The cabinets use a cold-wall refrigeration system and the maintenance-free condenser is fan-cooled for increased efficiency. Insulation is environmentally friendly polystyrene and the refrigerant is R600a hydrocarbon. Standard solid doors are hinged and lockable. These models are perfect companions to the reduced height *eCold* range of display fridges.

	32EF	162EF
H (mm)	805	805
W (mm)	493	600
D (mm)	550	550
Shelves	2 + base	2 + base
