

Upright Chillers

The **eCold** range... ...saving pounds and the planet.

The *eCold* range from is designed to be good to your pocket as well as the environment. Low-voltage fans and LED lighting put very little waste heat into the cabinet and improved insulation and efficient compressors maximise cooling performance while using less energy. *eCold* cabinets are also designed to be virtually maintenance-free, with no fluorescent tubes to change, and condensers that never require unblocking.

Details

Upright *eCold* cabinets are available in five sizes, to suit the widest variety of situations. Designed primarily for the storage and display of bottled beverages, these cabinets are also suitable for foodstuffs. They are manufactured from rust resistant zinc-coated steel with a hard wearing powder-coat finish, or from brushed stainless steel. The standard painted finishes are black and silver but other RAL and Pantone colour finishes are available to special order. The interior is stucco aluminium or stainless steel. The interior is fan assisted for consistent chilling performance and the maintenance-free condenser is fan-cooled for increased efficiency. The doors are double glazed, hinged and lockable. Solid doors (also lockable) are available as an option for all models. A top mounted lightbox is also available, great for product branding.

* Bottle capacities are based on 330ml 236mm high beer bottles for ES models and 100mm dia 75cl wine bottles for EW models. Wine bottle capacity quoted is using maximum shelves and laying bottles down. Capacities when standing wine bottles upright are broadly similar.

Cabinet Specifications

Features

- Fan assisted evaporator for rapid cooling
- Fan assisted, maintenance-free condenser
- Automatic defrost and re-evaporation
- Digital temperature controller
- LED lighting gives excellent product display
- Lockable double glazed door(s)
- ES models feature 5 flat shelves
- EW models feature 9-14 flat shelves

Options

- Solid door(s)
- Choice of colours
- Choice of black or silver painted exterior
- Other colours to special order
- Stainless steel exterior and/or interior
- Stainless steel doorframes/solid doors
- 14 - 16°C temp range for red wine
- Topmounted lightbox (adds 180mm to height)
